

TSP for Uniformed Services Forms and Publications

Form TSP-U-50 Message

NOTE: Form TSP-U-50, Investment Allocation, is not available on the TSP Web site.

This is because the form was designed to be read by an optical scanner; if it were downloaded from the Web, this might not be possible. You can obtain a copy of the form from your service, or, if you are separated from service, from the [TSP Service Office](#).

Alternatively, if you go to [Account Access](#) on this Web site, you can request a contribution allocation and/or interfund transfer electronically. However, you will be unable to request an interfund transfer or contribution allocation until your account has been established. New participants will be sent a New Account Letter from the TSP record keeper shortly after the first TSP contribution is received from the member's service. Forms received by the record keeper before the account is established will be rejected.
